

Screenshots and Description of the Application:  
Application can run on local server and Firefox.

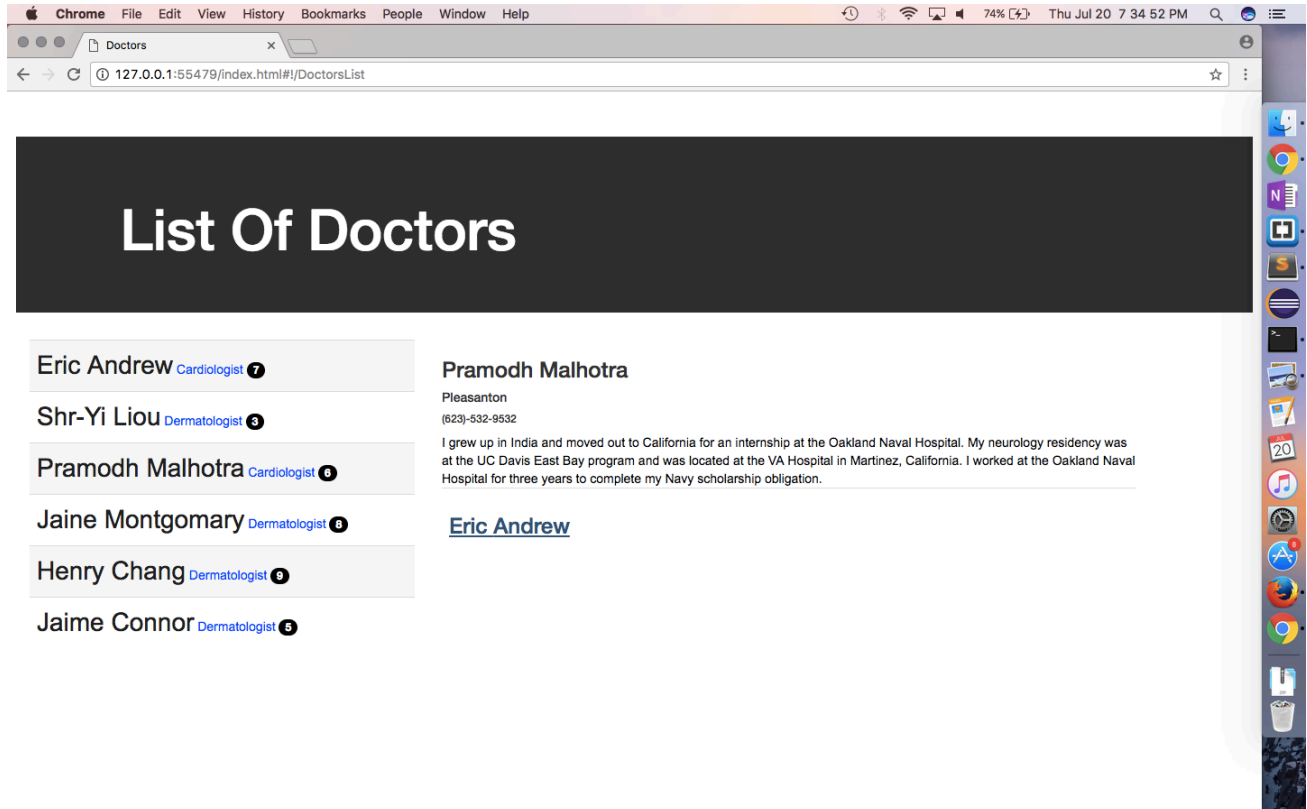

1. Here is the first main page of the application, where a list of doctors will be displayed on the left side.

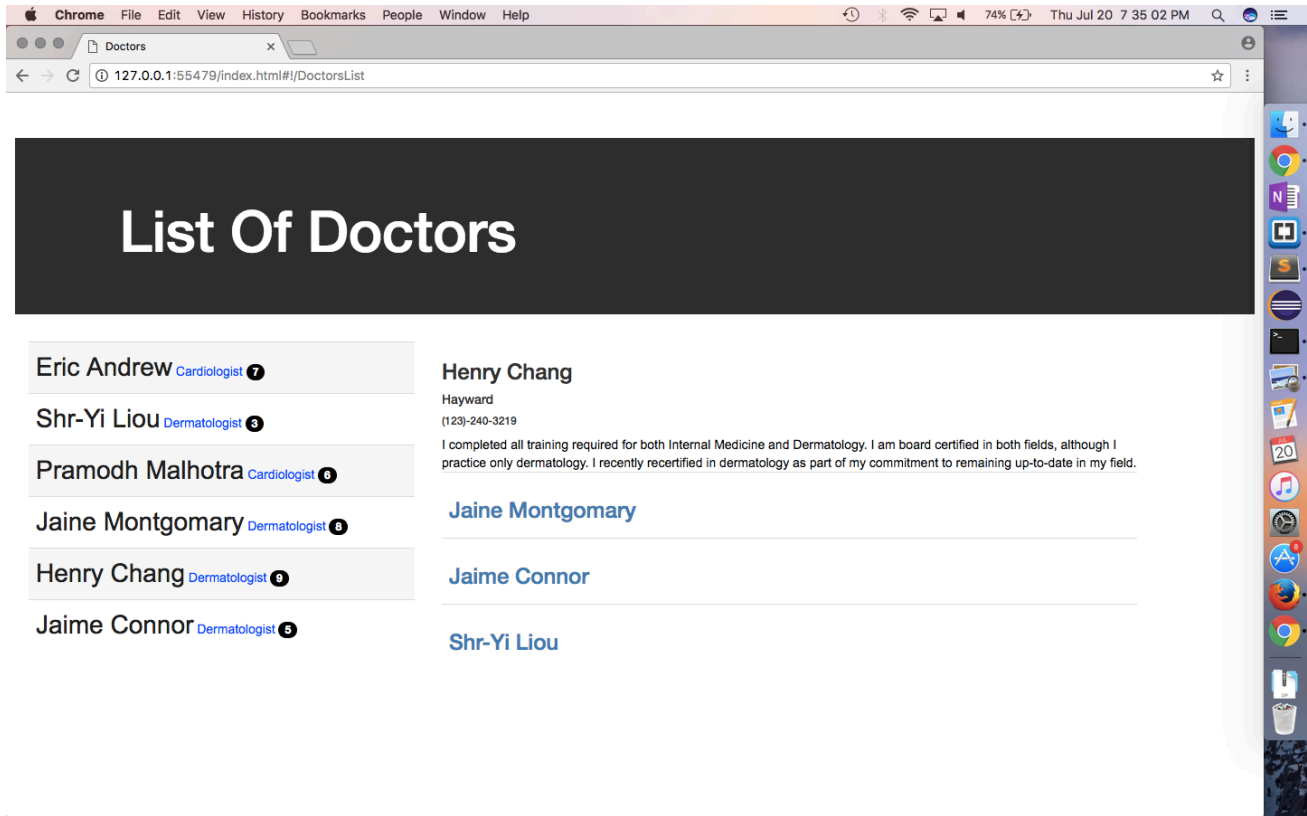

2. When we select one of the doctor from the list, his/her details are going to be displayed on the right side along with similar specialization doctors.

3. After getting the doctor details and similar specialization doctors names, we can re-select and get the other similar doctors details too.

4. If there are many doctors in one specialization, we can get there names in Ratings order. So that we can select the doctor who has good reviews.

5. Henry Chang doctor has highest ratings among others. When other similar doctors are selected, Henry Chang name's will be always on top.
